SUMMARY

Motivated and results-driven Full-Stack Web Developer with hands-on experience in building responsive, user-friendly, and database-driven web applications using HTML, CSS, JavaScript, ReactJS, PHP, MySQL, and ASP.NET. Passionate about learning emerging technologies and applying them to create innovative and scalable solutions. Adept at solving problems, collaborating in team environments, and continuously improving development processes. Currently seeking an internship opportunity to apply my technical skills, gain practical experience, and contribute to impactful web development projects.

EDUCATION

2022 – 2026

Computer Science
National School of Business Management
BSc (Hons) in Computer Science
Student ID: 26969 Current GPA: 3.85

2019 - 2022

Physical Science
Taxila Central College
GCE Advanced Level Examination
- Combined Mathematics - B
- Physics - C
- Information and Communication Technology – C

2016 – 2018

Prajapathi Girls' College
GCE Ordinary Level Examination
Achieved 9 A's

PROJECTS

ACADEMIC

Hotel Management System (Y1S2) ↗

Tech Stack: PHP, MySQL, HTML, CSS, JavaScript, Bootstrap

- Led a team as Project Leader in developing a comprehensive hotel management system.
- Designed and implemented the backend architecture and database management using PHP and MySQL.
- Integrated Google login and user authentication for secure access.
- Developed a real-time room booking system with availability notifications.
- Implemented automated booking confirmation emails to enhance the user experience.
- Built a dynamic admin panel for managing bookings, rooms, and website content.

E-Commerce Web Application (Y2S1)

Tech Stack: Java, JSP, Servlets, JDBC, MySQL

- Led a team of 10 to develop a fully functional e-commerce web application for the Development of Enterprise Applications module.
- Designed and implemented user authentication features including registration, login, password reset, and

session management.

- Integrated email services for password recovery and user notifications to enhance interactivity.
- Collaborated using GitHub with daily commits, feature branches, and detailed documentation of individual contributions.
- Gained in-depth experience in backend development with Servlets and JDBC, along with JSP for the presentation layer.

Online Food Delivery System (Y2S2) ↗

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL

- Developed a web-based food delivery system with real-time order tracking.
- Enabled users to monitor live order status, communicate with delivery personnel, and receive instant updates.
- Integrated automated email notifications to enhance customer experience.
- Gained hands-on experience in real-time data synchronization and event-driven updates.

P E R S O N A L

Portfolio ↗

Tech stack: ReactJS, Tailwind CSS, EmailJS

- Developed a personal portfolio website to showcase web development skills and projects.
- Implemented React.js for a scalable and maintainable structure, leveraging state management for dynamic content.
- Designed with Tailwind CSS for rapid, responsive design and customization.
- Enhanced user experience with smooth animations using Framer Motion.
  Integrated EmailJS for seamless contact form functionality and fast email communication.
